KITCHENWARE

# Right Choice For Your Kitchen

We aim to be India's most reliable and innovative brand in the steel kitchenware industry. We prioritize women employment to contribute meaningfully for nations growth.

Founded in 1972 as Sreedevi Turning Works in Central Madras by Mr. S. Dhanapal, SRDK Industries has evolved into a trusted name in stainless steel kitchenware. A skilled forming die maker, Mr. Dhanapal pioneered unique designs like the threaded double-joint bottle, famously known as the Horlicks Bottle, which became a market success.

With a growing portfolio of quality products—including pepper-salt bottles, powder boxes, baby scoops, diyas, and rose-water sprinklers—SRDK quickly expanded its reach across India.

In 2016, the brand was re-established as SRDK Kitchenware with a modern manufacturing unit in Thiruninravur, Chennai, led by Mrs. Bharathy Dhanapal. Today, SRDK combines legacy craftsmanship with innovation, delivering premium kitchenware trusted by homes and institutions nationwide.

Our mission is to adopt cutting-edge technology and smart manufacturing. We strive for precision in quality while nurturing skilled talent in the industry.

# 100% Sustainable Materials, and Certified Craftsmanship.

At SRDK, sustainability is not just a choice—it's our commitment. We proudly use 100% sustainable stainless steel materials that are durable, recyclable, and environmentally responsible. From raw material sourcing to final product, every step reflects our dedication to reducing environmental impact while delivering timeless kitchenware essentials.

Our legacy of craftsmanship since 1972 is backed by visionary manufacturing standards and ethical practices. Each product is created with precision, using advanced technology and expert hands to ensure quality, safety, and durability. This combination of eco-conscious materials and precious processes makes SRDK a trusted name in steel kitchenware, both in India and around the world.
